Product Manager - Data & AI

GenAI • LLM • RAG • SaaS B2B • MCP • Product delivery

PROFILE

Data & AI Product Manager with 5 years of experience in international **B2B SaaS** environments. **PSPO I** and **SAFe PO/PM** certified, I lead Data and AI products from user discovery through to adoption, ensuring alignment between business objectives, user needs, and technical teams. My core strength lies in turning complex challenges into products that create measurable value for both users and the business.

KEY ACHIEVEMENTS

- +200% productivity increase for Data Operations teams
- 100+ clients onboarded without additional headcount
- 400+ clients deployed on an Image Compliance product
- 75% of key users' tasks supported by the AI assistant.
- Deployment of AI products in an international SaaS environment

PRODUCTS DELIVERED

- GenAI Chatbot – **RAG**, **MCP**, insights generation
- **Sentiment Analysis** – LLM, polarity per topic analysis
- Image Compliance – **deep learning**-based
- **Data Governance** – data quality and scalability

PROFESSIONAL EXPERIENCE

NIQ DIGITAL SHELF - AI & DATA PRODUCT MANAGER | April 2023 - PRESENT

Context: Supported the transition from an e-commerce analytics scale-up to an international group.
Mission: Led Data & AI products to improve user experience, data quality, and operational efficiency, from discovery through to production rollout and adoption.

Achievements:

- *Led the development of a GenAI SaaS **AI assistant** based on RAG and MCP, enabling users to create KPI alerts, understand the product, analyze their data through natural language, and generate presentation.*
- *Launched an LLM-based **Sentiment Analysis** solution.*
- *Led an **Image Compliance** product using **deep learning** approaches to enable client-specific customization.*
- *Facilitated collaboration between users, CSMs, Data Scientists, Data Engineers, and Software Engineers.*
- *Prioritized product **roadmaps**, arbitrated business and technical needs, and managed **delivery**.*

Results :

- ***75% of key users' tasks** supported by the AI assistant.*
- ***+400 active clients** using the Image Compliance product.*
- ***10+ countries open** for the Sentiment Analysis product.*

Environment

10 Data Scientists | 10 Data Engineers | 13 Software Engineers | 6 Product Owners | Head of Product | UX/UI | CSM | International users
